

TOILET BLOCKS

Impact-A Toilet Blocks are a white crystalline powder, perfumed with a lavender scent made into a volatilizing block and is used to reduce odours in urinals.

Ideal for use in industrial cleaning and institutional situations as well as households.

Key Features

- Blocks are perfumed with a pleasant lavender smell
- Slow volatilizing to reduce odours over a long period of time
- Can be used in domestic and commercial applications

Directions For Use

- Place a small number of blocks into the urinal catchment area. If you require a stronger lavender fragrance to reduce the odours, then add more to adjust accordingly. The blocks will dissolve and break down over time, so repeat process as needed.
