

**Product: Citrus Multipurpose Cleaner** 

SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION			
Trade Name:	CITRUS MULTIPURPOSE CLEANER		
SUPPLIER:	Construction Supply Specialists		
ADDRESS:	17 Lakeside Drive Broadmeadows VIC 3047		
TELEPHONE:	+61 3 93574228 FAX: +61 3 93574229		
AH EMERGENCY TELEPHONE:	13 1126 in Australia	ABN:	67 100 073 087
Substance:	Liquid	<b>Product Use:</b>	Multipurpose Cleaner
Creation Date:	May 2023	<b>Revision Date:</b>	May 2028
Product Code:			

## **SECTION 2 – HAZARDS IDENTIFICATION**

Classification of the substance or mixture

- This product is **NOT HAZARDOUS** according to criteria of Safe Work Australia.
- The product is **NOT a DANGEROUS GOOD** according to the Australian Dangerous Goods (ADG) Code.
- The product is **NOT HAZARDOUS** according to GHS.

GHS - GLOBALLY HARMONISED SYSTEM		
<b>GHS Classification</b>	None allocated.	
GHS Pictogram	None allocated.	
<b>GHS Signal Word</b>	None allocated.

**Product: Citrus Multipurpose Cleaner** 

<b>EMERGENCY OVERVIEW</b>	1			
Colour	Orange Odour Citrus			
<b>Physical Description</b>	Liquid Viscosity Not relevant			
Major Health Hazards	None known			
Note				
IMPORTANT	This SDS and the Hazard Classifications contained therein, only apply to the product			
	in its concentrated form, as supplied.			

## **SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS**

Ingredients:	gredients: CAS Number:		Proportion:
Ingredients determined to hazardous (nonionic surfa			
chelators, dye)	various		100%
NOTE:	Ingredients determined not to be hazardous are present in concentrations that do not exceed the relecut-off concentrations as found from NOHSC publication "List of Designated Hazardous Substances have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publica "Approved Criteria for Classifying Hazardous Substances", or have been found NOT to meet the criteria dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION LABELLING OF CHEMICALS (GHS), 4th edition United Nations 2011.  Listed ingredients may be below the cut-off concentrations for classification as hazardous, but are listerinformation purposes and for additive effects.		'List of Designated Hazardous Substances" or ubstance as defined in the NOHSC publication have been found NOT to meet the criteria of a MONIZED SYSTEM OF CLASSIFICATION AND 5 2011.

SECTION 4 – FIRST A	AID MEASURES
Scheduled Poisons	Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).
First Aid Facilities	
Required	No special requirements.
Inhalation	Remove victim to fresh air away from exposure. Obtain medical attention if symptoms occur.
Skin contact	Wash skin with plenty of water. Seek medical advice (e.g. doctor) if irritation, burning or redness develops.
Eye contact	Immediately irrigate with copious quantities of water for at least 20 minutes. Eyelids to be held open. Seek medical advice (e.g. ophthalmologist) if symptoms persist.
Ingestion	Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice (e.g. doctor).
Advice to Doctor	Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons.

-------------------------	-------------------

**Product: Citrus Multipurpose Cleaner** 

### **SECTION 5 – FIRE FIGHTING MEASURES**

Fire and Explosion

Non flammable.

Hazards

**Extinguishing Media** 

**Fire Fighting** 

Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or

decomposition.

Non combustible Flash Point

### SECTION 6 – ACCIDENTAL RELEASE MEASURES

**Emergency Procedures** 

• Shut off engine and electrical equipment and leave off.

Use an extinguishing media suitable for surrounding fires.

- Move people from immediate area; keep upwind.
- Stop leak if safe to do so.
- Send messenger to notify fire brigade and police.
- Tell them location, material quantity, emergency contact.
- Indicate condition of vehicle and damage or injuries observed.
- Warn other traffic.

**Occupational Release** 

Minor spills do not normally need any special clean-up measures. In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate protective equipment as in section 8 below to prevent skin and eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water. If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services.

### **SECTION 7 – HANDLING AND STORAGE**

**Handling** As with any chemical, avoid excessive personal contact. Wear protective clothing when

> risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with water after handling. Work clothes should be

laundered. Launder contaminated clothing before re-use.

Store in a cool, dry, place with good ventilation. Avoid storing in aluminium and light **Storage** 

alloy containers. Keep containers closed at all times – check regularly for leaks

### **SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION**

Date of Issue: MAY 2023 Page 3 of Lotal 8	Date of Issue: MAY 2023	Page 3 of Total 8
---	-------------------------	-------------------

**Product: Citrus Multipurpose Cleaner** 

Control	parameters
---------	------------

### Occupational Exposure Limits

No exposure standards have been established for the mixture. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels.

	Contro	parameters
--	--------	------------

**Biological Limits** 

No biological limits allocated.

#### PERSONAL PROTECTION PPE

#### Ventilation

Use only in a well-ventilated area. Ensure ventilation is adequate to maintain air concentrations below exposure standards.

# Personal Protective Equipment

Use good occupational work practice.

The use of protective clothing and equipment depends upon the degree and nature of

exposure.

Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken.

The following protective equipment should be available;

#### **Eye Protection**

Generally not required to handle diluted solutions as per label directions.

The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting, etc. Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them.

### **Skin Protection**

Wear gloves. Overalls, apron, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc.

# Protective Material

Types Respirator Material suitable for mild detergent contact – Butyl rubber, Natural Latex, Neoprene, PVC, and Nitrile.

Not required for normal cleaning operations with adequate ventilation.

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable dust/particulate filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES			
Physical State	Liquid	Colour	Orange
Odour	Citrus	Specific Gravity	~ 1 @ 25 ºC
<b>Boiling Point</b>	Approximately 100 ºC	Freezing Point	Approximately 0 ºC
Vapour Pressure	Not available	Vapour Density	Not available
Flash Point	Not flammable	Flammable Limits	None
Water Solubility	Miscible in all proportions	рН	~ 9 @ 25 ºC (1% w/w
			water)
<b>Volatile Organic</b>		Coefficient of Water/Oil	
Compounds (VOC)	0 % v/v	Distribution	Not available
Viscosity	Not available	Odour Threshold	Not available
<b>Evaporation Rate</b>	Not available	Per Cent Volatile	Not available

SECTION 10 – STABILITY AND REACTIVITY		
Reactivity	Stable at normal temperatures and pressure.	
Chemical stability	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.	
Conditions to avoid	Avoid contact with heat or heat sources.	
Incompatible materials	None known.	
Hazardous	Product can decompose on combustion to form Carbon Monoxide, Carbon Dioxide, and	
decomposition products	other possibly toxic gases and vapours.	
<b>Hazardous Reactions</b>	None known.	

SECTION 11 – TOXICOLOGICAL INFORMATION		
POTENTIAL HEALTH EFFECTS		
	cts expected if the product is handled in accordance with this Safety Data Sheet and the as or effects that may arise if the product is mishandled and overexposure occurs are:	
Inhaled	Inhalation over exposure may result in mucous membrane irritation of the respiratory tract and coughing.	
Ingestion	Ingestion may result in irritation to the mouth and throat, nausea, vomiting.	
Skin Contact	Skin contact may result in irritation, redness, pain, rash, dermatitis. Severity depends on the concentration and duration of exposure.	
Eye	Contact may result in irritation, lacrimation, pain, redness, conjunctivitis.	
Chronic	No known effects.	

CITRUS	TOXICITY
MULTIPURPOSE	LD50 calculated >10,000mg/kg
CLEANER	not toxic

**Product: Citrus Multipurpose Cleaner** 

## **SECTION 12 – ECOLOGICAL INFORMATION**

General	No single ingredient (over 1%) recognised as environmental pollutant. Product miscible in all
	proportions with water. AS WITH ANY CHEMICAL PRODUCT, DO NOT DISCHARGE INTO
	DRAINS, WATERWAYS, SEWER OR ENVIRONMENT. Inform local authorities if this occurs.

Aquatic Toxicity	
CITRUS MULTIPURPOSE CLEANER (as sold)	Acute Aquatic Toxicity NOT HAZARDOUS – Not harmful to aquatic life.
CITRUS MULTIPURPOSE CLEANER (at use dilution)	Acute Aquatic Toxicity NOT HAZARDOUS – Not harmful to aquatic life.

## **SECTION 13 – DISPOSAL CONSIDERATIONS**

Product and Packaging	Dispose of contents/container to chemical landfill.	Consult local or regional waste
Disposal	management authority for further details.	

## **SECTION 14 – TRANSPORT INFORMATION**

Labels Required	
ADG	None allocated
Marine Pollutant	No

## SECTION 15 – REGULATORY INFORMATION

**Labeling Details** 

GHS Classification Nil

**SUSMP** Not scheduled.

ADG Code Nil

AICS All ingredients present on AICS.

Issue Date	12 May 2023
Version Number	V 1.1
Abbreviations and	ADG Code: Australian Code for the Transport of Dangerous Goods by Road and Rail.
acronyms	AICS: Australian Inventory of Chemical Substances.
	CAS Number: Chemical Abstracts Service Registry Number.
	GHS: Globally Harmonized System of Classification and Labelling of Chemicals
	HAZCHEM: An emergency action code of numbers and letters which gives information to
	emergency services.
	HSIS: Hazardous Substances Information System
	IARC: International Agency for Research on Cancer.
	NOHSC: National Occupational Health and Safety Commission.
	NTP: National Toxicology Program (USA).
	SDS: Safety Data Sheet
	STEL: Short Term Exposure Limit.
	SUSMP: Standard for the Uniform Scheduling of Medicines and Poisons.
	TWA: Time Weighted Average.
	UN Number: United Nations Number.

Risk assessments	This SDS is a tool to communicate hazards which can assist you in creating relevant risk assessments for your workplace. There are many variables in determining whether a particular hazard is a risk in your workplace. Keep in mind this may be influenced by such things as the amount used, frequency of use, engineering controls, effectiveness of safety training and many more considerations.	
Disclaimer	This MSDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.	
Note	Safety Data Sheets are updated frequently.	
	Please ensure that you have a current copy.	
Copyright	This document is copyright.
